Wall Max

PARTS:

Wall Max

Wall Mount
Plate

Optional: Guard

HARDWARE:

5/16" Stopnut

5/16" Washer

1/4" x 2"
Lag Bolt

1/4" Washer

TOOLS:

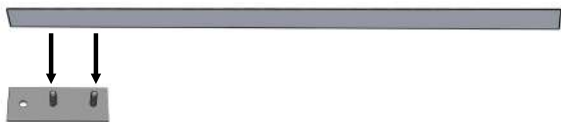

- 7/16" Socket
- Drill
- Tape Measure
- Pencil

*Begin by unpacking all boxes
and locating the hardware*

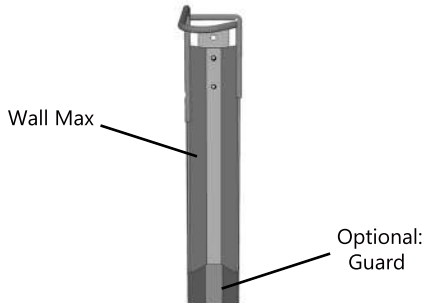

- 1 Locate a Wall Mount Plate and lay down with pems facing up.

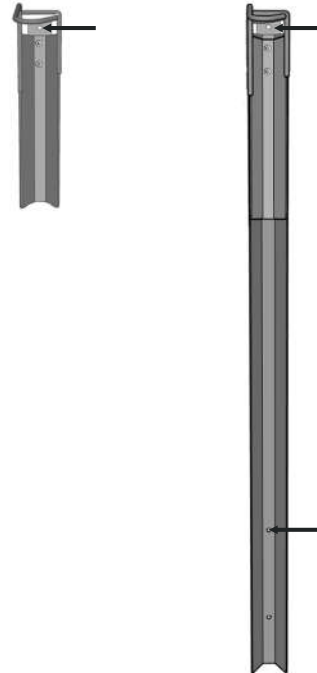

- 2 (Optional) If you have a Guard, place the top holes onto the Wall Mount Plate pems.

- 3** Next, align the two top holes of the Wall Max with the pems on the Wall Mount Plate. Secure using (2) 5/16" Washers and (2) 5/16" Stopnuts.

- 4** Secure the Wall Max to the wall using 1/4" x 2" Lag Bolts and 1/4" Washers.

SPACING RECOMMENDATIONS:

We recommend 16" on-center spacing between racks
